

Warehousing & Logistics

In Barcelona, APR has 20.000 sqm warehouses, placed on Zona Franca and Gavá.

We have own trucks fleet and necessary connection to deal with the distribution of the cargoes on the Spanish and European cities.

On our warehouses we are able to clear through Customs, import, export and transits, and, therefore on our premises we are consolidating and deconsolidating as well sea shipments as land shipments.

APR is one of the very few Forwarders who has the authorization from the Customs Authorities of "PUBLIC BONDED WAREHOUSE" on its own plant. We can receive and store "on bond" the shipments from all over the world origin, without payment of duty and VAT. There is no time limit

We are dealing with storage, stock control, "picking" and distribution of goods.

All these services are controled by our computer system and through our programm APR-ON LINE" it is possible to get the whole information and transmit the orders on line.

Services we are providing:

-

Unloading of trucks and containers

-

Transits

-

Palletazing of goods

-

Labeling

-

Packaging

-

Stocks control

-

Picking

-

Bar code reading
